

Four Leaf Clover

Gavin Adcock

Lift me up while I'm feeling good
Just to drown me while I'm down
And I sure miss the sound of rain
While I loved you on this couch
I've got a porch light glowing in the dark
The old number seven just tore on my heart
Didn't know that I could feel much lower
But I ain't sober

Baby come over we'll turn off these porch lights
Toss these horse shoes around the room
I'll have a rabbits foot laying by the bedside table
Getting lucky as a four leaf clover
Baby come over

Last time I was close to you was in a fresh linen motel bed
And I can't recall the lies of everything we said
I didn't mean it you didn't care
I was on fire with your fingers in my hair
Didn't know that we could be much closer
But I wasn't sober

Baby come over we'll turn off these porch lights
Toss these horse shoes around the room
I'll have a rabbits foot laying by the bedside table
Getting lucky as a four leaf clover
Baby come over

There's been times I thought we were for the best
And that's something I need to get off my chest
I've been rolling dice and I've been bearing crosses
I've had some wins and I've cut my losses
Didn't know that I could love you sober
A Four Leaf Clover

Baby come over we'll turn off these porch lights
Toss these horse shoes around the room
I'll have a rabbits foot laying by the bedside table
Lucky as a four leaf clover
Baby come over
