

# Graveyard

Gavin Adcock

Second-hand high, city green eyes  
Wondering when I'm coming down  
Pull me in close, baby, you know  
How to make me stick around

I'm so used to being on the road  
Never have a hand to hold  
Make me wanna hold on  
But if you look into my past  
You'll see this won't last  
My skeletons will get you gone, chill your bones

I got a graveyard, been on a brake horse  
Like it's my damn day job  
I got a headstone with all the name on  
You wanna take it this far  
Don't tell me you didn't have no warning  
You wake up and I'm gone in the morning  
I just couldn't rest in peace  
'Cause I got a graveyard

Second-hand low, thought you should know  
I'm as miserable as you  
Had it real good, dig it up if I could  
But I just can't break through these rules

'Cause I got a graveyard, been on a brake horse  
Like it's my damn day job  
I got a headstone with all the name on  
You wanna take it this far  
Don't tell me you didn't have no warning  
You wake up and I'm gone in the morning  
I just couldn't rest in peace  
'Cause I got a graveyard

I got a graveyard, been on a brake horse  
I know it's all my fault  
I got a headstone to carve your name on  
'Cause I always take it this far  
Don't tell me you didn't have no warning  
You wake up and I'm gone in the morning  
I just couldn't rest in peace  
'Cause I got a graveyard

Yeah, I got a graveyard  
Yeah, I got a graveyard  
I got a graveyard
