

I've Got Three

Gavin Adcock

It's been a long week morning
I dug into last night
And I just laid down these demons
'Cause I couldn't put up a fight

And it's hard for me to say
I got a problem with me

I got one life to live
Better quit living like I got three
Well I've been hunting and running
It's been coursing through my veins
And there ain't one thing about me
That I will ever change

And it's hard for me to say
I got a problem with me
I got one life to live
Better quit livin' like I got three

It's been a mind wrenching evening
I've been hurting and a grieving
About all the cash I spend
Don't know if I make the rent

And it's hard for me to say
But I got a problem with me

I got one life to live
Better quit livin' like I got three
Well I've been hunting and running
It's been coursing through my veins
And there ain't one thing about me
That I will ever change

And it's hard for me to say
I got a problem with me
I got one life to live
Better quit livin' like I got three

It's been a long draggin' year
I've been held down in some beer
And I've loved a couple women
And the world just keeps a-spinnin'
But I don't have me a while
The fightin' disagrees

I got one life to live
Better quit livin' like I got three
Well I've been hunting and running
It's been coursing through my veins
There ain't one thing about me
That I will ever change

It's hard for me to say
I got a problem with me
I got one life to live
