Make Me Quit

Gavin Adcock

You can tear me down if you want to
And tell em I really wasn't it
Dresses up wearing them high heals
You really know how to throw a fit
The battle rages onward as you tell em all what they wanna know
But don't be surprised when I load it on up and I get outta here and
go

I've been biting my tongue
Steady on the run from the man I used to be
And I've been putting in a good years work tryna make you wanna see
Cause your girls go out they all start drinking
You think them thoughts and you say what you're thinking
And I'm pretty tired of your petty ass shit
Breaks me down and makes me wanna quit

And Imma be honest I don't want to
But you really leave me no choice
And I can hear the hateful rolling right off the rasp of your voice
So I grabbed my pen wrote down a line
Left it on the counter for you to find
Girl I hope you cry up a river
This heres what it reads

I've been biting my tongue
Steady on the run from the man I used to be
And I've been putting in a good years work tryna make you wanna see
Cause your girls go out they all start drinking
You think them thoughts and you say what you're thinking
And I'm pretty tired of your petty ass shit
Breaks me down and makes me wanna quit

So let em tear a hole in my big dreams
Maybe it'll help your pride
Remember when I said I loved you
Well honey I reckon I lied
Well I took your clothes threw em all in the yard
Grabbed my bags when I lit up a spark
Watch me burn down 441 you never meant nothing to me

I've been biting my tongue
Steady on the run from the man I used to be
And I've been putting in a good years work tryna make you wanna see
Cause your girls go out they all start drinking
You think them thoughts and you say what you're thinking
And I'm pretty tired of your petty ass shit
Breaks me down and makes me wanna quit
