

## Run Your Mouth

Gavin Adcock

Don't wear your hat low, don't keep your eyes closed  
'Cause there's some trouble right where you're at  
I've made some mistakes, so take it from me  
You better move on right down the track

Just keep a left foot heavy on the pedal  
Don't let them catch you settled  
Since you don't know how to act  
Run your mouth, don't look back

I knew this blonde girl  
Blue eyes and blonde curls  
I took her home one day just a week before  
I knew she had a man but no I didn't plan  
To have my face pressed against a 44  
But then it went click and then I thought quick  
To grab my drink and run right out that far back door

Just keep a left foot heavy on the pedal  
Don't let them catch you settle  
Since you don't know how to act  
Run your mouth and don't look back

You say some firm words, make sure you damn heard  
And that it cuts them deep and leaves them feeling low  
And if you live like this, make sure that you don't miss  
Your opportunity when you gotta go

Just keep a left foot heavy on the pedal  
Don't let them get you settled  
Since you don't know how to act  
Run your mouth, don't look back
