

You're For You

Gavin Adcock

I call it quits if you really just want to
After the things we put each other damn through
Can't beat a dead horse
Right through the ground
And I won't always be around

'Cause we can't pick fights with the wind no more
'Cause we took a ship and sailed right in the shore
Can't fix love with foot out the door
For me and baby you're for you

Before this was hate
It was love at the seams
Sweet talks of children
And big diamond rings
Life don't always work like a plan
And I won't always be your man

'Cause we can't pick fights with the wind no more
We took a ship and sailed right in the shore
Can't fix love with a foot out the door
For me and baby you're for you

Rules do say your life is better than mine
So just step on back and take a little time
To see what I see and what it means to me
And why we won't ever belong

'Cause we can't pick fights with the wind no more
'Cause we took a ship and sailed right in the shore
Can't fix love with a foot out the door
For me and baby you're for you
