

# Destiny

Gavin DeGraw

Love, the only love I need  
The only one for me  
My truth, my destiny  
And there, beyond a million stars  
I'll wipe away the scars  
For all eternity

And when, asking how I knew  
Your love was so true  
Heaven only had to know

And we, we are the million to one  
The children of the sun  
A world so far away

Cry, let me be your tears  
Let me face your fears  
We've already lit the darkness

You and I  
Look how far we've come  
Walking on the sun  
Stay forever in my heart
