

Anywhere But Here

Gavin James

Feels like I'm waking up
Well gimme your heart, I won't give it up
And forever be the one I love
So why would I go anywhere but here?

Never gonna crash
'Cause we've got the magic to make it last
And we've got romance and this and that's
So why would I go anywhere but here?
Say you're never gonna let me go

Anywhere but here
Anywhere but here
So whenever the world is out to get ya
There's a beautiful adventure
Around here
Right here
Between all this architecture
I'm so happy that I met ya here

So let's forget the hard times
We'll get through all the stop signs
If you tell me that you'll be mine
Oh, it's a cold, cold world and my cold, cold heart
Can't bear to begin again
Oh, it's our storm we're living in
So let it rain, let it rain, let it rain, let it pour on down on me

Anywhere but here
Anywhere but here
So whenever the world is out to get ya
There's a beautiful adventure
Around here
Right here
Between all this architecture
I'm so happy that I met you here

Why would I go
Why would I go
Why would I go
Anywhere but here?
Why would I go
Why would I go
Why would I go

You can spend your life
Write a million love songs
Sing out of time
And get all of the words wrong
But that's alright 'cause we're never gonna be
(Anywhere but here)

You can spend your life
Write a million love songs
Sing out of time
And get all of the words wrong
But that's alright 'cause we're never gonna be

Anywhere but here

Just say you're never gonna let me go
Anywhere but here
