

Circles

Gavin James

Don't leave slowly
If you're going, pull the covers over me
I need a lover to save me
To help me, please

Oh, I don't care if it's for forever
I don't have to wait for the weather
Tell me, when he takes you home

Does he love you like I love you?
Does he love you like I love you?
Or are we running in circles?
Are we running in circles?
Does he know you like I know you?
Does he hold you like he's supposed to?
Tell me, where does your heart go?
Why are we running in circles?
Why are we running in circles?

I'll try to get by
But it's slowly living
In this strangers eyes
I thought I knew ya
But some things never turn out right
Now there's distance between us
That I can't climb
I hope you'll be alright

Does he love you like I love you?
Does he love you like I love you?
Or are we running in circles?
Are we running in circles?
Does he know you like I know you?
Does he hold you like he's supposed to?
Tell me, where does your heart go?
Why are we running in circles?

Oh, I don't care if it's for forever
I don't have to wait for the weather
Oh, I already know
Where you go you know I'll follow
I don't care if you fell from heaven
If you're going to dance with the devil
Tell me, when he takes you home

Does he love you like I love you?
Does he love you like I love you?
Are we running in circles?
Are we running in circles?
Does he know you like I know you?
Does he hold you like he's supposed to do?
Tell me where did your heart go?
Why are we running in circles?
Why are we running in circles
