End Of The World

Gavin James

I wanna get lost in all of the quiet between me and you
Don't wanna get caught in a room full of strangers, can I stay
with you?
Because my universe it, my universe it is all you
I know that your love is an uphill battle that I'll never lose

I'm not going to ask for a lifeline
Just give me a second to rewind
And tell me I'm yours for the last time
And I'll let you know

That even if the sky falls down all around us, I'll follow you
We can both get lost in all of the madness, we'll make it throu
gh
Oh, I will walk through all the fire, if you give me love it ta
kes me higher
Even if the sky falls down all around us, I'll follow you
And we'll make it to, to the end of the world

I know that your heart's been torn into pieces, battered and br
uised
I promise l'll put them back together, that's what I'll do
Because my universe it, my universe it was solo (Solo)
Until I found you straight out of nowhere, I won't let you go

Even if the sky falls down all around us, I'll follow you (I'll
 follow you)
We can both get lost in all the madness, we'll make it through
Oh, I will walk through all the fire, if you give me love it ta
kes me higher
Even if the sky falls down all around us, I'll follow you
And we'll make it to, to the end of the world
To the end of the world

Because my universe it, my universe it is all you (Is all you)
Yeah, my universe it, my universe it is all you (Is all you)
And so I will walk through all the fire, if you give me love it
 takes me higher
Even if the sky falls down all around us, I'll follow you
We'll make it to, to the end of the world
To the end of the world
