

# Fake Love

Gavin James

Dreams

Darling, it's just a dream  
Just keep your eyes on me  
Before you fall a sleep

Time

Darling, it's only time  
But who the hell am I  
Nothing you want to keep

If it's the last dance, what are we living for  
A little heart break, a little fake love  
If it's the last chance, we need a miracle  
A little romance, a little fake love  
A little fake love

It's cold

But we're better off alone  
Live in a different home  
Find people we don't know

And try

No more living lies  
With nothing left to cry for  
No more going nowhere

If it's the last dance, what are we living for  
A little heart break, a little fake love  
If it's the last chance, we need a miracle  
A little romance, a little fake love

If it's the last dance, what are we crying for  
Just let me hold you with a little fake love  
We lost our innocence, we need a little more  
Forget who we were with a little fake love

Darling, it's just a dream  
Just keep your eyes on me  
Before I fall a sleep

If it's the last dance, what are we living for  
A little heart break, a little fake love  
If it's the last chance, we need a miracle  
A little romance, a little fake love

If it's the last dance, what are we crying for  
Just let me hold you with a little fake love  
We lost our innocence, we need a little more  
Just let me hold you with a little fake love
