

Ghost

Gavin James

There's a ghost
In this house
These old walls
Are falling down

There's a stranger
Out in the garden
And he knows
Our secrets now

Remember how we used to dance
We were flying
Now we're at our feet
You and me just like the movies
Had our final scene
But I don't wanna see you leave
Now you're just a ghost in me

There's no fire
In our hearts
And through the ashes
We'll find a spark

There's a stranger
Out in the garden
And oh but it's him you see
So you'll always be the ghost in me

Remember how we used to dance
We were flying
Now we're at our feet
You and me just like the movies
Had our final scene
But I don't wanna see you leave
Now theres nothing left of you and me

There's some things we cannot see
Now you're just a ghost in me
Now you're just a ghost in me, ohh

But this house
Was never a home
Was just empty rooms
And empty halls

Find a match
And start a flame
But you will always be
The ghost in me
