

# I Do

Gavin James

I used to not believe in destiny  
Never saw the colours through the trees  
Now that you're here with me, I do  
And I don't know what the trouble was  
Used to stay up late and runaway from love  
Now I would go all night just to wake up next to you  
I do...  
Yeah I do...

We can build a family  
And live a life in harmony  
There's really nowhere else I'd rather be  
The kids can get your big brown eyes  
You're olive skin, but I know you'll keep  
A secret smile for me  
Maybe I don't say it that much  
But I love you  
Please believe me, just because  
I do...  
I do...

You're not into diamonds but  
I put all I've got in this little box  
But money doesn't matter much to you  
When we're standing at the alter  
And our family's in the pew  
And I've only got one question left for you  
Will you say I do  
Will you say I do
