

Only Love

Gavin James

If all the stars decided just to fall down from the sky
And forever wonder why they did
If all the boulevards started burning up in flames
Tell me, where are we gonna write our names?

Well, maybe I'm lost
Or am I too afraid of walking on my own?
Well, maybe I'm lost, if I'm lost
Could you help me find a way to come home?

'Cause darling when I'm with you I would wander through the fire
Slowly tripping through the wires
So whenever we can't find a way to push on through the haze
We'll remember what our mothers used to say

Oh, maybe I'm lost
But I'm not too afraid of walking on my own
Well, maybe I'm lost, if I'm lost
Could you help me find a way to come home?
Could you help me find a way to come home?
Could you help me find a way to come home?

'Cause I don't know where I'm going and I don't know where I've gone
It's only life and life will carry on
All the love I seem to cling to I twist until it breaks
But only love, only love can stop the ache
Yeah, only love, only love can take the pain away
So when you're gone and when I'm gone we'll get lost again
