

Sober

Gavin James

You bring the stars out
And you make it rain for days
You tear my heart out
And you put it back in place
We take our feelings
And hide them in bottles
Just like the moonlight
Be gone by tomorrow

Will you love me
When you're sober?
Will you need me
All hungover?
If you're lonely
I'll come over
I'll keep dreaming
Till it's over
'Cause you don't love me when you're sober

No good at staying
No good at letting go
Barely surviving
Through all these highs and lows
Caught in a dead end
Where did we begin
So we can go back
To you slow dancing with me

Will you love me
When you're sober?
Will you need me
All hungover?
If you're lonely
I'll come over
I'll keep dreaming
Till it's over
'Cause you don't love me when you're sober

But you don't seem to care at all
And I'm left holding all the hurt
'Cause now I know

That you don't love me
When you're sober
You don't need me
All hungover
If you're lonely
I'll come over
I'll keep dreaming
Till it's over
'Cause you don't love me when you're sober
No, you don't love me when you're sober
