

Strangers

Gavin James

I'd tie a rope around the moon and pull it down to you
We can fly around the room, dream a dream of fools
I don't believe it anymore
When everyday I wake waitin' for

Someone to cover me up and take me home again
And give me a feelin' I don't understand
Lend me your heart and let me love again
Like when we were strangers

Now every minute breaks away
Every moment [?] today
You're always in my head
I still feel you in my veins
Back when the world was at our door
Every day I wake up waitin' for

Someone to cover me up and take me home again
And give me a feelin' I don't understand
Lend me your heart and let me love again
Like when we were strangers

Oh will you cover me and take me home again
No body else around here can understand
Give me your hand and we can play pretend
Like we were strangers again
