

# Watch It All Fade

Gavin James

Would you let go  
Of love or go  
Save the world  
Or write a story  
No one's ever heard?

Before I knew  
When I saw her  
Heart over mind  
Fear there's somebody  
Fighting that feeling  
That you just can't believe me  
But you need it like living

Castles in islands  
All the crowns and the diamonds  
I don't think I can find them now

Stay if you want to  
Leave if you need to  
And watch it all fade

Fighting that feeling  
That you just can't believe  
But you need it like living

Castles in islands  
All the crowns and the diamonds  
I don't think I can find them now  
Castles in islands  
All the crowns and the diamonds  
I don't think I can find them now

Stay if you want to  
Leave if you need to  
And watch it all fade  
Just watch it all fade
