

# White Noise

Gavin James

The way you're glowing in the twilight  
It still hits me like the first time  
Is it just around midnight?  
Oh, I don't know 'cause time flies by  
When I'm with you I don't know what to say  
You bat your eyelids and, oh, I drift away  
I still get nervous after all these years  
And the words just disappear

Lately all that I can hear is white noise when you speak  
White noise, white noise  
Lately I don't hear the sound of you talking to me  
It's white noise, white noise  
Oh, I promise that I'm listening  
But when I see your eyes I wanna dive right in  
The way you flood my mind  
All I hear is white noise when you speak  
White noise

Let's go hiding in the shadows  
And find somewhere only we know  
Ain't it funny how life goes?  
If you were gone I'd be so lost  
What would I do if none of this is true?  
'Cause if you left me my heart would break into a million pieces  
Scattered 'round the room  
Can we live like lovers do?

Lately all that I can hear is white noise when you speak  
White noise, white noise  
Lately I don't hear the sound of you talking to me  
It's white noise, white noise  
Oh, I promise that I'm listening  
But when I see your eyes I wanna dive right in  
The way you flood my mind  
All I hear is white noise when you speak  
White noise

And it sounds like  
La-ahhh  
And it sounds like  
Ohhh

So I promise that I'm listening  
But when I see your eyes I wanna dive right in  
The way you flood my mind  
All I hear is white noise when you speak  
White noise  
All I hear is white noise when you speak  
White noise
