

## After All

Gavin Mikhail

Take this silence out of my head  
Just open me up and make it dead...

I am not as strong as I wanna be  
I need the freedom, belief  
Can the heavens help me now?  
This is not the life that I wanna lead  
I need the peace of the free  
Can you hear me asking...

Did it really have to be me after all?  
Did it really have to be me after all?

All eight guns have gone to six  
It's your disease I thank for this...

I am not as strong as I wanna be  
I need the freedom, belief  
Can the heavens help me now?  
This is not the life that I wanna lead  
I need the peace of the free  
Can you hear me asking...

Did it really have to be me after all?  
Did it really have to be me after all?

These are the signs of the coming waves of sound... And  
they will guide us through everything they've found...  
If we stay and listen all their words can tear us  
down... These are the signs of the coming waves of  
sound...

Did it really have to be me after all?  
Did it really have to be me after all?  
Did it really have to be me after all?  
Did it really have to be me after all?
