GAWNE

I gotta kill em now  
Swear to god that I'm the illest  
You was still in diapers while I was wiping  
So why you think that my pensive skill is ten to the fifth your penman skill  
Man it feels like I've been the best on the list for real  
When I hit the field I'm made of man of steel like Pittsburgh in the NFL  
While you still in the college dorm  
Fans are probably bored of the way you rap it's like watching peewee sports  
You just volley on the court  
You ain't nothing not a fucking problem  
Probably wish that I would get some almond butter smothered on you  
Other words I'm nutting on you  
Maggot you would swallow for a dollar like your fucking mama  
Do you like the navy seals did Osama bang bang  
It's a doozie giving roofies to these twitter losers now they awfully woozy  
gang bang  
I don't play pussy too offensive when I'm on the offensive  
Should've never mentioned me for no reason now you're giving me a reason  
To go teach these kids a lesson  
All these haters wanted clout they were starving for attention  
Till they stepped to LUKE GAWNE now they GAWNE in sixty seconds

You need a mask cause I'm sick with the bars  
COVID ain't shit compared to this  
I'm like fifty times as hard  
Cause I don't social distance from afar  
I just put you in the dirt and now we're six feet apart

No I never wanted to kill em  
Was willing to save em until he kept egging me on  
I was angry somebody pray for me  
Luke is now turning to Lucifer  
Devil is coming I'm somewhat a shit like a pagan  
I sacrificed him like a lamb and he's painfully bleeding  
The bullets I shot was like seventy eight to the brain would be sure to be wounding him fatally

Never gonna ever lose to you  
Bitch that stupid skinny ass toothpick  
Motherfucker wanna diss me till I made em mince meat  
When I hit em with the wrath of a G.O.A.T. MC  
Little bitch started poking me when I spoke till I opened the can of whoop a ss  
Chocking his throat until there's never no hope to breathe suffocate and go to sleep

This was supposed to be over comatose to beef  
But a bitch still got me in her mouth like she blowing me  
This little thot will stir the pot like some ovaltine  
Just to get noticed by my fan base you're totally gonna need more than a bandard when I hit em with a grand slam like some poetry  
Alec Ogletree tackling you in the open leaving em looking like quarterback Dak Prescott with a broken knee and swollen feet  
Yeah even an orthopedist can't believe how that a bone would twist with that rotary  
Cause I'll make this pussy bleed like some ovaries

I'm no Messiah Diablo when I bring the fire  
Cause I be burning every morsel from your torso up to your eyelids  
The morgue is where you reside got your corpse in a suit and tie  
People crying out at your wake putting flowers down right beside you

I will shoot lead till I see you dead in an ICU bed  
Yes cause I am ruthless the mightiest on mics might have just duped them  
Dudes be mighty stupid to Micky Mouse around and not do shit  
Mice among the men get exterminated like rats in sewers

So till the day that I fall won't back down from a bully not afraid of a bra  
wl  
Don't take balls to get on Twitter and talk so put your face in your palm pu  
ssy and bow down to Lukey I'm GAWNE
