

Did Me Wrong

GAWNE

You did me wrong (baby) what can I do? (What can I do?)
Don't come around, no fuck you
You did me wrong (baby) what can I say? (What can I say?)
You want back in, oh no way
You did me wrong (baby) what can I do? (What can I do?)
Don't come around, no fuck you
You did me wrong (you did me wrong), yeah
You did me wrong (you did me wrong)

Thought we were friends and now you're switching up
I said it's me or the latter, you went and chose the drugs
Your mom's abusive, your father's an addict
Swore that we would never fall into these habits
You found some new friends, they dragging you down
Try to pull me in, I can't go that route
You're someone that I will miss, I notice
That you're sinking, I can't go down with the ship

And I did what I had to
To separate myself from all the trash around you, yeah
Remember cutting those ties, I was
Driving home, bumping that Ill Mind 5

You did me wrong (baby) what can I do? (What can I do?)
Don't come around, no fuck you
You did me wrong (baby) what can I say? (What can I say?)
You want back in, oh no way
You did me wrong (baby) what can I do? (What can I do?)
Don't come around, no fuck you
You did me wrong (you did me wrong), yeah
You did me wrong (you did me wrong)

I got demons inside my heart
And they're stuck to me like scars (like scars)
So even if it seems like I want to escape, I'm not that strong (I'm not that strong), yeah
Now I'm thinking 'bout all the times and how you did me wrong (yuh)
'Cause I know (yuh) that I'll be better without you
When all the drugs are gone (gone)

But I can't seem to quit 'em
Pill bottles and prescriptions
I done battle my addiction every day
Lord, forgive me for I think I'm 'bout to cave
Lotta shit I had to say
Till no one listened to my pain
They walked away, got no family, friends, or people to explain to
It's painful, I try to act okay, but no I ain't cool
Been praying to God, someone save me from this place
'Cause I fear if I OD again I'll end up in the grave

You did me wrong (hey) (baby) what can I do? (What can I do?)
Don't come around, no fuck you
You did me wrong (baby) what can I say? (What can I say?)
You want back in, oh no way
You did me wrong (baby) what can I do? (What can I do?)
Don't come around, no fuck you

You did me wrong (you did me wrong), yeah
You did me wrong (you did me wrong)
