

Everybody Dies

GAWNE

I been riding round
With my window down
Screaming FUCK THE WORLD
Cause I'm right
Lot of people
So many people
Wanna see me fall from these heights
Pray to God
That I'm way up high
When them killers come for my life...
You can hate me
Never fucking break me
I'll be number one fore I die

Unh
Everybody dies
And I don't even really know why
All I know is still he gon' grind
Every minute goin' by
Is a race against time
Tryna make it with these lines
Cause my moms in her sixties
Working overtime
Won't even lie
That shit's killing me inside
Ma!
I'ma make a milli with the rhymes
So you can retire
So you can be free from the grind
Hell, I done been through the fire
I was fifteen
Living in the pity of my mind
Like a city full of crime
Then I dropped out of high school
Started poppin' pillies tryna really suicide
So they put me in psych ward
No doors
Full force
Solitaire confined-
It was like war
Fighting for my life
Only class was a crash course
Couldn't even pass that
Failed
So it's back to the white board

Riding round
With my window down
Going to a place
That I never been to
I don't know
Where this road goes
Baby if I go down
Just remember
I'm alone
You left me here
To die at home

You lying hoe
Don't need you now
Don't need you here
Got me, myself and I-
I'm grown
I'm dying now
I'm dying here
So father please forgive my soul
And all my sins
And all my lows
I promise you
My heart is gold-

I been riding round
With my window down
Screaming FUCK THE WORLD
Cause I'm right
Lot of people
So many people
Wanna see me fall from these heights
Pray to God
That I'm way up high
When them killers come for my life...
You can hate me
Never fucking break me
I'll be number one fore I die

I'll be number one fore I die

You can hate me
Never fucking break me
I'll be number one fore I die

I'll be number one fore I die

You can hate me
Never fucking break me
I'll be number one fore I die...

Unh
Yeah everybody dies
But whatchu gonna do when you alive?
Thrive or survive?
Twenty-two-years I done been on this ride
You can have the money
Just give me the time
Y'all chase the green
And I'll catch the vibes
Exemplified by every record
Now I'm recognized
On Alexa, why...?
Cause I got on that plane to LA and electrified!
WHOO!

Everybody tryna be God
They judge
They hate
They gossip with a friend
But don't say it to your face
So for everybody bullied
I promise you that you're beautiful

"Screaming fuck the world cause I'm right!"

You can tell em' SUCK MY DICK!
I'm the fucking comeback kid!
I was just a teenage boy in a hospital bed
When the doctors told me I would probably be dead

But fuck the world they were wrong
Fuck the world I was right
There's no haters in sight
Don't know how much times left
I no longer fear death
I pulled through every night!
God I'm doing my best!
Mom I'm doing my best!
Promise you I won't rest
Though I get tired sometimes...
I won't stop till success...

I been riding round
With my window down
Screaming FUCK THE WORLD
Cause I'm right
Lot of people
So many people
Wanna see me fall from these heights
Pray to God
That I'm way up high
When them killers come for my life...
You can hate me
Never fucking break me
I'll be number one fore I die

I'll be number one fore I die

You can hate me
Never fucking break me
I'll be number one fore I die

I'll be number one fore I die

You can hate me
Never fucking break me
I'll be number one fore I die...
