

Lucifer

GAWNE

I feel the monsters crawl when I go to sleep
The devil's in my ear
And I heard him speak
He'll be burning me
For eternity
Yeah I've tried to leave
Though now he follows me
I feel the monsters
The monsters!
I think that I'ma die here
Oh I'm scared
When everything around me breaks in a thousand pieces
Will I...
Make it to heaven
Or die with demons...

We got
Blood in chalices
Bible scriptures and passages
Father cleanse the evil
Fore I know not what the damage is
The devil said that I'd be better off dead
So he could have me then...
This is not a game
Feel eternal flames
With each passing breath
Ah!
Father please forgive me for my sins
There's a cost for every loss and every win
In the end I feel so empty envy drove me to the brink
Mentally insane I can't explain
The walls begin to shrink

They come crawling
I swear that I can hear em' calling
Paralyzed and I'm falling
Terrorize me so often
Swear that I've finally lost it

I feel the monsters crawl when I go to sleep
The devil's in my ear
And I heard him speak
He'll be burning me
For eternity
Yeah I've tried to leave
Though now he follows me
I feel the monsters
The monsters!
I think that I'ma die here
Oh I'm scared
When everything around me breaks in a thousand pieces
Will I...
Make it to heaven
Or die with demons...

News alert
Move like a savage an executioner

I see ghosts and ghouls
Get too close you fools'll get bruised and hurt
Lucifer
Kicks you to the curb
Kid I'm too disturbed
Do your worst
I got a diamond head like I'm Uzi Vert
At the end of my rope
No more friends I'm alone
Where the heck can I go
Got nothing left for me
What's coming next I don't know
Monsters under my bed
Make my heart punch through my chest
I try to lunge
But I could never outrun the dead so
Finally come to my senses
Put that gun to my head

They come crawling
I swear that I can hear em' calling
Paralyzed and I'm falling
Terrorize me so often
Swear that I've finally lost it

I feel the monsters crawl when I go to sleep
The devil's in my ear
And I heard him speak
He'll be burning me
For eternity
Yeah I've tried to leave
Though now he follows me
I feel the monsters
The monsters!
I think that I'ma die here
Oh I'm scared
When everything around me breaks in a thousand pieces
Will I...
Make it to heaven
Or die with demons...
