

# No Going Back

GAWNE

Too far gone, I can't live like this  
We got no heat, just a candle stick  
I'm grown grown, tryna fix these cracks  
So close now I can't go back

Home

See me running out that door cause I'm gawne  
Bitch so long  
I promise you that, once I leave I can never run laps  
I won't ever come back to my past man I can't not a chance  
Cause the pain was insane from the way I was trapped  
22 years I done live through the crap, but I made my escape and the anger im  
mensed  
Payback to the world now I'm the man  
Bitch I'm the muhfuckin man  
Fuck God damn  
Never had a plan  
All I ever did was I just go ham  
So I just throw hands  
And fuck what you heard about my past  
You can get hurt looking back  
So I don't wanna hear a word about that blurted out  
From that little bird around muhfuckin word of mouth crap  
Cause I started from the bottom but, I made it to the summit  
Never panicking when I was in the gutter  
Cause I do it for my mother making music for my brother  
So for every mother fucker who was telling me  
I'd never leave a legacy  
When I was down and losing my identity and pedigree  
I thought I'd never be able to shred a beat again but then the heavenly imme  
nity  
Gave me the strength to better me so presently I'm turning into someone you  
could never be

My life use to be a big struggle how to lift the pieces everyday tryna save  
a few dollars  
Just so I could have a budget for the studio you could never knock my hustle  
Watchin my momma work 12 hour days stung me like touching hydrogen peroxide  
All the nights I suffered I ain't never going home  
Hell no I'm running feet don't fail me now I'm comin

Too far gone, I can't live like this  
We got no heat, just a candle stick  
I'm grown grown, tryna fix these cracks  
So close now I can't go back

Home

What you know bout being down on yourself uh  
Always feeling homesick even when you're home and you never really figured t  
hat out but  
Maybe I been thinking bout the past hated being sick of always sitting in th  
e house uh  
Now I'm pretty healthy but I'm scared to live my life cuz I don't do so well  
inside a crowd  
Mothafucka I don't need no booze I don't need no jewels I don't need no slee  
p I don't need no food  
Tried to tell my teachers I don't need no school now they look at me like he

s so cool  
I got déjà vu when I see yall fools I don't need no help there will be no de  
uce  
I got women in my room and they need my juice  
So I fuck em till they drop like a DJ do  
What the heck baby just come and have sex baby  
I been thinking a lot I swear it ain't you I'm drivin myself crazy  
Shit I'm feeling depressed lately but I know I'm blessed daily  
And I should just focus on me and never let them phase me

Damn but I do  
So tell me who to blame when I feel it comin through  
I got the fire in my veins spit at every one of you  
Until the fever set and there ain't no corona virus flu, whooo  
Mix it with Ebola glow up hold up it's an epidemic never let it into you  
And I know ya I noticed they hold us at a higher level than the fuckin rest  
of you

Too far gone, I can't live like this  
We got no heat, just a candle stick  
I'm grown grown, tryna fix these cracks  
So close now I can't go back!
