

Outlaw

GAWNE

As I walk home
Down this long road
It's late at night now
After bars close
I hear a faint sound follow me
But I'm all alone
I guess it's just the footsteps of my sorrows
Why does love always end with the hurt?
Without you every breath is a curse
I would have followed you to the ends of the earth
Till we're dead and then kept in a hearse
Even then when we're left in the dirt
I will love you til' the universe
Bends into thirds
From the final black hole
In the center of it all
No light
No sound
As it fades to black

Yeah you be the good guy
I'll be the outlaw
Under the moonlight
Here come the hound dogs
Fight as the wolves howl
Nowhere to run now
Even when outgunned
Scrap like a southpaw
Call me the bad guy
I'll be the outlaw
Call me the outlaw
Pray for my demise
Wait for that downfall
Even when outgunned
Always gon' die hard
Willing to lose life
As long as I find god

They hate me cause I'm real
But I won't let it break me
Cause I know that love can heal
My mama spent her retirement
To buy me out a deal
So what kind of fucking son would I be
If I don't succeed and I fail
Pray the lord there's no L's
Grant me strength
Give me grace
I need help
Not at war with the devil
Just at war with myself
Weight of the world
His struggles had got em'
I was sixteen and writing sixteens
That no one wanted
They say that more money
More problems

Tell that to a fella who ain't never had a dollar
I could go mad tryna remember days in the squalor
When this notepad
Was the only paper in my pocket
Ah to be honest
They don't wanna see you get commas
No not even they been sleeping
Like pajamas
Never seen em' pay homage
So deceiving while I seen em'
In my comments steady speaking out
And seeking out drama

Yeah you be the good guy
I'll be the outlaw
Under the moonlight
Here come the hound dogs
Fight as the wolves howl
Nowhere to run now
Even when outgunned
Scrap like a southpaw
Call me the bad guy
I'll be the outlaw
Call me the outlaw
Pray for my demise
Wait for that downfall
Even when outgunned
Always gon' die hard
Willing to lose life
As long as I find god

As long as I find god
Find god
As long as I find god
Find god
As long as I find god
Find god
Find god
Find god
