

**RED**

**GAWNE**

Red is what I see  
Blood'll stain the water lamb to slaughter when you follow like blind sheep  
It ain't no wonder people probably don't like me  
A storm is coming all the thunder and lightning  
It's kill or be killed now  
Gorillas we throw down  
Moving like that wolf in sheep clothes how could I?  
Ever leave the steeple and let my people down  
I rather die than keep it peaceful my egos proud  
I'm seeing red now  
Losing my eyesight  
Became a blind man for money and limelight  
One hell of a ride right?  
I just look at the highlights  
Bury me alive with my pride if I die tonight  
Till my last breath  
All that's left is  
Death and taxes  
Then it's blackness  
When the world stops spinning on it's axis  
I say a prayer that heaven'll grant me access

Yeah I got pain  
But what's it for  
No one loves me  
Anymore  
Not anymore  
I'm insane  
I thought you'd know  
Lose my mind every time I go  
Go  
Pray for me  
Pray for me

I'm seeing red now!  
Everyone's dead now!  
Red is what I see!  
Who's gonna stop me?  
Nothing can stop me!

And I'm living to see the bad past ruling  
Over the promise that they wanted us to have cash moving  
That was dishonest making me vomit to clash that's grueling  
Present day trauma we're not gonna see the last mass shooting  
Red (streams from)  
Your head a whole new meaning for red (kingdom)  
We plead and now we end up with dead (things from)  
Machetes medicine and with lead (dreams done)  
The feds seem numb  
Cheah!  
All these killers are bred trying  
To not become minorities so the deads climbing  
It's time we wipe away the tears that we shed crying then (go)  
Save the children and yes protect my queen  
Red from all the speeches you said lying  
Like you ain't send the red notice and redlining  
Hate I'm in your morning paper it read "I'm King"

And hate to hear Luke and Tech N9ne sing!

Yeah I got pain  
But what's it for  
No one loves me  
Anymore  
Not anymore  
I'm insane  
I thought you'd know  
Lose my mind every time I go  
Go  
Pray for me  
Pray for me

I'm seeing red now!  
Everyone's dead now!  
Red is what I see!  
Who's gonna stop me?  
Nothing can stop me!
