

Rise

GAWNE

People die tryna get close
Who's willing to climb until they let go?
One in a million finna really blow
The rest of y'all just fading like an echo...
Demons in my head make me feel alone
I see ghosts when I'm sleeping, they fiend for my soul
But hell no I'm not leaving
I'm reaching my goal
Keep on climbing that mountain
I'll rise to the top on my own

Rise to the top by my own means
With the homies outta OP, low-key
Workin' so hard that I don't sleep, for weeks
Probably finna die before I make it to the top
Gotta stop
Call the police!
OC!
I'm about to fully go at the goat
When I go for the gold trophy
LIKE KOBE! -
Unh

I do murder with the flow
Never hurtin' for da dough
Put the money in the bag
Then I skrft off in the ghost
Roethlisberger when I throw
I don't really think it's bad
But I keep it on the low
Not a human, I'ma GOAT
Introverted and alone
Top of the mountain I'm on!
Whoo!
Whoo!
SO FUCK AROUND AND GET SMOKED
I'm ON TOP OF THE WORLD
AT THE TOP OF MY GAME
NUMBER ONE FOR MY AGE-
Lot-of-people-told-me-I-would-never-make-a-milli-
That was silly
Cause-I'm-better-than-ninety-percent-of-em'-really-but-
Even if you get close to the top
You won't ever make it
IT'S DEATH ROW!
WHOO!

People die tryna get close
Who's willing to climb until they let go?
One in a million finna really blow
The rest of y'all just fading like an echo...
Demons in my head make me feel alone
I see ghosts when I'm sleeping, they fiend for my soul
But hell no I'm not leaving
I'm reaching my goal
Keep on climbing that mountain
I'll rise to the top on my own

Space X
I take off

Rocket man
Kim Jong

Everybody wanna say somethin'
When you're A1 like steak sauce

Vrrm-Vrrm!
I'ma chain saw
When I chop the beat up and I lay bars
In these Ray-Bans like Ray Charles
But I won the game...
EIGHTBALL

I am as good as it gets

Put in the work

Blood and the sweat

Stuck out my neck

For the respect

Bitch I won't ever relevant-
Oh no-no-no-no never again-
Will I fall
On a stairway to heaven I'm climbing again
As I rise to the top
From the bottom
I went from a bottomless pit
To the top of the mountain I'm on the ascent!
Whoo!

"People die tryna..."

Get close to that mountain top but

"Who's willing to climb until they..."

Let go and you're fallin' off-

Going down in flames

Like a Molotov

But I swear to God

I'll never fall

I everlast-ed Everest

I'm a demigod

And demagogue

You can bet I'm hot

Goin' flippity hippity with the pen I got

Been through a lot

Won't ever stop

Never ever gonna let em' get a win on my watch

Disfigure that clock

Seven figures I want to make it

Just to give to my mom

Not a steady climb

But never mind it

It's been a ride

I'll either fall and meet my demise-

Or be idolized-

When I'm dead inside-

I resurrect

AND THEN I RISE!

Whoo!
