

Silence

GAWNE

Silence is deafening
Day of the reckoning I give you everything
Hope for the best in me
I got some demons opening sesame
Used to have dreams as a kid
Used to have dreams that were big
'Til I learned life was a bitch
Walk around ice is on my wrist
Counting the days til' I die
Counting the days going by no one's saving me why!?
I do not pray to the sky
Bitch I done made up my mind
I done made up my mind!
Might be the greatest alive
Doesn't mean shit not when nothing is left and we die! Die! Die!
Doesn't mean shit when we die
My life it doesn't mean shit

Let me in your home for a minute
Man it's cold outside
Cruel world I'ma tenant
And I'm in it all alone
On my own independent
Time to sell my soul ain't no hope for a sinner
Man it figures why I've never lacked dough
Gettin' bread like I'm Gretel and Hansel
You could bet I have hoes
But those gold diggers wanna get the bag though
Fabricate a scandal
Just to get you canceled
From the accusations
No one's safe a Tsunami swept away Johnny Depp
When the culture came and exposed his name
But he's back and the whole world knows he's framed
Amber Heard should just go with grace
Talkin' roller skates off the Golden Gate
Cause if these grown ups wanna act like babies
I say bring back Roe v Wade
Did my wretched mind upset guys?
Well fuck it I'ma the best alive
I guess it's why
I always gotta shock the world like Tesla
I electrify
But I still hear the skeptic cry they go
"Luke Gawne's like Asher Roth"
"He's wack and soft"
Your words coming back to haunt
Kalashnikov I load it up and blast you off
An astronaut
Now Houston don't have a problem
Drive drunk in Jurassic Park
It's after dark
I fuck around and crash the car
Into a T-Rex totaling my Aston Martin-
Callin' State Farm they said
That's retard
I flee the scene like fuck it though

Man this car ain't mine
It's one I stole so
Even if it was I would cut the rope
Cause I just really can't afford the deductible
So yup I know I'm broke!

Silence is deafening
Day of the reckoning I give you everything
Hope for the best in me
I got some demons opening sesame
Used to have dreams as a kid
Used to have dreams that were big
'Til I learned life was a bitch
Walk around ice is on my wrist
Counting the days til' I die
Counting the days going by no one's saving me why!?
I do not pray to the sky
Bitch I done made up my mind
I done made up my mind!
Might be the greatest alive
Doesn't mean shit not when nothing is left and we die! Die! Die!
Doesn't mean shit when we die
My life it doesn't mean shit

I am him
Flawless spitta
Give a fuck what I'm called on twitter
Y'all are bitter we all agree
I done got that dog in me I'ma winner
Return of the grim reaper to features
Every time on beat through your speakers
You could bet your keister
That I'll ether each verse
Til' my knees hurt like a geezer
This whole town'll
Know that I run shit just like Donald
Trump when he told his click to follow
On January 6 the election was rigged
So shit we boutta
Storm this fence Mike Pence ain't wanna
Pussy ass bitch like a kid that's coddled
Sip moscato as I hit that bottle
Freeze up on the mic like Mitch McConnel
St-stu-stuering
What was he muttering'
These old ass men are the heads of the government?
Guys!
Someone please explain to me as to why?!
Old as fuck lookin' like they bout to die
Croak five blokes
Dive below in a submarine to find boats
Their abyssal bound
It goes down
Shit goes south an implodes pow!
Silence is deafening
This is the day of the reckoning
Coming for everything
Taking your life yeah I'm menacing
I get the house so your kids have been calling me daddy now
Banging your wife with her wedding ring
On in the bed man there's levels to this shit
And only a Yeti is filling my shoes
Doing petty things

Who the fuck would wanna bet against me?
It'd be difficult
You would be trippin' better hit the road
Bitch I'm too visceral
I give a fuck bout a mistletoe
I'll never kiss a hoe
That ain't permissible
I wear the Harry Potter cloak invisible
Run up in your crib
And kick you in the dick and throat
On video
Then upload it on your shitty phone to Vimeo
Now your whole city knows that you got a little bone
I don't give a fuck
Everybody sucks
Never given love
Get up off my nuts
They gon' get left in dust
So best of luck
Cause there ain't no catchin' up
Or catching me
The rest of these pest MC's
Are more trash than the Grouch on Sesame Street
So SMD you mother fuckers ain't impressing me
I really am the best indeed
I left the beat dead
Confess it bleeds red
So rest in peace yes I fled the scene

Silence is deafening
Day of the reckoning I give you everything
Hope for the best in me
I got some demons opening sesame
Used to have dreams as a kid
Used to have dreams that were big
'Til I learned life was a bitch
Walk around ice is on my wrist
Counting the days til' I die
Counting the days going by no one's saving me why!?
I do not pray to the sky
Bitch I done made up my mind
I done made up my mind!
Might be the greatest alive
Doesn't mean shit not when nothing is left and we die! Die! Die!
Doesn't mean shit when we die
My life it doesn't mean shit
