

Standing On My Business

GAWNE

Standing on my business bitch I'm really with that action
Don't gotta be aggressive
My investments did it passive
They ain't never do it
Like I did it
Y'all are capping
Difference between us is that I went and made it happen
It happened
I made it happen
Why y'all faking for the internet
Catfish
Only time we see you winnings in your captions
Standing on my business while you're kneeling
Colin Kaepernick

Only time I'm kneeling is like Brady in the 4th
Even in victory formation Jameis Winston I'm a score
Gimmie more
Stack my trophies from the ceiling to the floor
If this industry don't want me
I'ma kick right through the door
This is war now
Wicked to the core
No life support I pulled the cord out
Doctor said I'd probably end up dead by twenty four wow
Broke as fuck on Medicaid he really was a poor child
Way too rich to fight you now let's take it to the court house
Disclaimer I got lawyers on retainers
Call the office of the mayors
Tell them boys do me a favor
Twitter trolls I get annoyed
But keep my poise cause I'ma famous entertainer
See the thing is I'm just toying with you haters

Standing on my business bitch I'm really with that action
Don't gotta be aggressive
My investments did it passive
They ain't never do it
Like I did it
Y'all are capping
Difference between us is that I went and made it happen
It happened
I made it happen
Why y'all faking for the internet
Catfish
Only time we see you winnings in your captions
Standing on my business while you're kneeling
Colin Kaepernick

Baby I'm too smooth
Sipping liquor drinking booze
Please excuse me if I bicker
Eat a snickers when I'm rude it's what I do now
I am from that new town
I am from the place you never been
If she's a ten then we gon' fool around
Cool down nah I'm kind of liking it hot

She got a bullseye on her
Hit it right in the spot
From the front back bottom to top
Love it or not
I'm like amazon prime
Cause I come in the box
I remember boiling ramen noodles in my mamas home
I come from a place they never made it out Guantanamo
Lot of people brought up getting caught up like the common cold
Standing on my business
Winning
Vamanos

Standing on my business bitch I'm really with that action
Don't gotta be aggressive
My investments did it passive
They ain't never do it
Like I did it
Y'all are capping
Difference between us is that I went and made it happen
It happened
I made it happen
Why y'all faking for the internet
