GAWNE

Like the evil of men  
I'm deceiving you  
Leaving you dead  
When I flow with medieval intent  
Feel no need to intervene  
Or step in my arena  
Fuck around get eaten  
I'm am a hyena  
Top-of-the-food-chain  
I'll never relent  
There's no talking me off of this ledge  
I'ma die on the throne  
Like Saddam, and Assad and Gaddafi  
I'm bombing my foes  
And it's off with their heads  
Till the guillotine  
Goes on a killin' spree  
Like the military of Philippines  
The super human ability filling me as a real MC  
I'ma milliliter, millisecond, millimeter  
From becoming even iller than Attila the Hun  
When at will I turn into a mother fuckin' gorilla-  
Godzilla!  
The wildebeest  
Ain't nobody could really be in vicinity  
My enemies cower to Yahweh  
The divinity power, devour the cowards  
Cause y'all are mini-me's...

So let it be known that when I make flows...  
I got infinity stones cause I'm THANOS-  
With a stranglehold  
On this whole  
Mother fuckin' game  
I go insane when I boost  
Aimed at your throat  
Dang!  
Django's back and unchaining the flow  
Brains gettin' blown  
And it pains me to know  
That the anger is so dangerous  
I may just go  
APE!  
Apeshit get irate  
No patience and blow  
Face it I'm yo  
Ace in the hole  
So the whole table will fold...

And I'm taking you back  
To the depths of my soul  
It's so black  
If you go there  
You'll never come back  
It'll be taking a toll  
When you can't even  
Begin to breath in

You're heaving  
And wheezing  
Went off of the deep end  
Been working so hard  
That I'm not even taking time off on the weekends  
I'm off of my rocker  
I'm not even sleeping  
Shit, I need a doctor  
Before I turn into a heathen  
You're seeing the demons that taunt me at night  
In the mind of genius...

I been through the wind, the rain, the sun, the fire's smoke  
You can take my life and dog I'd still be called the GOAT  
Super hero's coming at my motherfucking throat  
But I don't think these bitches ready for infinity stones!  
Falling  
Crashing  
Dying  
Burning  
Yeah, I been through the wind, the rain, the sun, the fire's smoke-  
But I don't think these bitches ready for infinity stones!

So can I get a pen?  
Lemme get an amen  
I never made amends  
With the fake friends  
GAWNE is back from the playpen  
And killing shit again  
So this villain will offend  
All you laymans

Kid, I'm amazing  
I spit and it's blazing  
Then rip out the cage  
Been inflicting my rage on you bitches  
My cadence is vicious  
In-a-flash-it-can-hit-ya  
Like taking a picture!  
Troy Aikman, I sling this shit!  
King of dis bitch  
When I'm swinging this thingamajig  
Like it's Wimbledon  
Then again  
I was killin' shit since a little kid  
Am I legitimate? Or what Jimmy-da-Kimmel is?  
A laughing stock  
I'm tryna be more like Timbaland  
Kim-Kardash  
Photoshop  
Breaking the Internet  
Take your opinion  
And shove it up her bubble butt  
Never runner up  
Number one in dis bitch!

So let it be known that when I make flows...  
I got infinity stones cause I'm THANOS!

"I got infinity stones cause I'm THANOS"

God give me the strength for me to pull through...  
Twenty-two fucking years

I went through hell  
As my mental health  
Was in cell  
Like I entered jail  
So this shit ain't ending well...  
I'm scared frozen stiff  
When the walls of life have been closing in  
Nowhere left but on the throne to sit  
Cause I've smashed every record but the gold  
I've yet to set  
So I hold my breath  
... inhale...

As I reach for the sky  
Rise!  
Set that bar so high  
Why?  
So nobody will ever be equal with I  
Lies!  
Cause nobody will ever be better than me  
Till I meet my demise  
Just try!  
You mother fuckers ain't even close to the rhymes  
Or the level I'm at  
Getting posturized  
By the rap devil, in fact  
I'm GAWNE-  
So I'll never be back...

Leavin' you dead in your tracks  
I been the head of the class  
While your last  
And your never gon' pass me  
So don't ask me for jack  
Mumble rapping vendetta  
Won't let up  
Till I'm rapping OMEGA-  
On Lil Pump's head  
And on Yachty and Uzi  
Y'all boujee?  
So rude even Kanye could get it...

Motherfuckers really wanna see me go to hell  
But I don't really give a damn about opinions if you can tell  
I wish you hating bitches well  
I just excel  
By never taking any L's  
A featherweight  
There goes the bell  
And I get at em'  
Attacking em' with the javelin  
"Ratatat" automatic  
Bitch I'm battering like a Paladin  
From here to the Vatican  
It's unanimous  
I never been no Anakin  
My name is Luke  
And I've had it with the shenanigans  
No manikin challenge  
I plan to damage  
To any Madeline, Madigan, or mandolin-  
It don't matter bout the frickin' analysis  
Or whatever the fuck the pattern is-

I've had it with the babbling  
I'm mad again  
You'll be leaving in an ambulance!

So let it be known that when I make flows...  
I got infinity stones cause I'm THANOS!
