

# Authentic Nature

GAWVI

Hey, whoever is watching right now, yeah I've got this

When it's all authentic and your heart's all in it  
Ain't no feeling like the whole team winning  
Almost drowned but I gotta keep swimming  
How am I down when it's just beginning?  
I survived (stay with me [?])  
I survived (stay with me)

I survived (stay with me [?])  
I survived (stay with me)

It ain't even my business  
I can't find the need to go and fit in  
I been healthy, that boy, he been slimming  
All this therapy stopped me from quitting  
I can't lose, it's already all written  
In my lane and it's Tokyo drifting  
I been valuing all of my real friends  
And I got no more time for religion

([?])  
Yo, what group are we in?)

Yeah  
[?] how you think you gon' write me  
Y'all still rapping on internet type beats  
Change the game like I did, it's unlikely  
Seen the world show me real love, wanna feel love  
Don't you slip up, it will kill ya  
When it's really authentic  
Who you calling?

When it's all authentic and your heart's all in it  
Ain't no feeling like the whole team winning  
Almost drowned but I gotta keep swimming  
How am I down when it's just beginning?  
I survived (stay with me [?])  
I survived (stay with me)

When it's all authentic and your heart's all in it  
Ain't no feeling like the whole team winning  
Almost drowned but I gotta keep swimming  
How am I down when it's just beginning?  
I survived (stay with me [?])  
I survived (stay with me)

Ay  
When I step in the light know it come with a price  
Fighting my demons, at war in my mind  
Thanking my angels, I was supposed to die  
Counting my blessings, somehow I survived  
Came through the fire, came back to life  
I was washed in the water, a eye for a eye  
Mercy on me, bro the curse is on me  
I'm reversing the hex where I'm destined to be  
Me and all my brothers locked in

I been in the cut [?]  
On the rise, got a view out the cockpit  
On the vibe, got a view out the tropics  
Young man, trending topic  
Rockstar, pull up and rock it  
I'm doing my dance, pop it  
Let's set it off in the moshpit

When it's all authentic and your heart's all in it  
Ain't no feeling like the whole team winning  
Almost drowned but I gotta keep swimming  
How am I down when it's just beginning?  
I survived (stay with me [?])  
I survived (stay with me)

When it's all authentic and your heart's all in it  
Ain't no feeling like the whole team winning  
Almost drowned but I gotta keep swimming  
How am I down when it's just beginning?  
I survived (stay with me [?])
