

## Bitter Pill

GAWVI

Yeah, uh-huh, uh-huh, uh-huh, uh-huh, yeah, yeah

I can't believe it, I ain't see it all this time  
Lately I feel right at home  
'Cause two by two we hopped up out this flight  
Lately I've been feeling purified in paradise  
Oh, lately I feel right at home  
'Cause two by two we hopped up out this flight  
Brodie you can't stop me now  
I won't drown

Whoever said it was pieces of cake  
Life it ain't easily smile on your face  
Grass ain't greener you gonna see snakes  
Some of y'all preaching is all in the way  
I'm posted right next to that new Everglades  
Broward is where I might need my grave  
Move things around and you go elevate  
I love when they show up with no hesitate  
God is above me I'm seeking His face  
I had to wake up from all of the mistakes  
I always go with the sun in my face  
Thank you Sha'Carri I'm running my race  
I rather show you it's God that I praise  
All my teams I will not demonstrate  
Why would I fear when I follow the Great  
Why would I fear when I follow the Great  
Ah yeah, ah yeah, huh, huh, Great, ah yeah

I can't believe it, I ain't see it all this time  
Lately I feel right at home  
And two by two we hopped up out this flight  
Lately I've been feeling purified, in paradise  
Oh, lately I feel right at home  
'Cause two by two we hopped up out this flight  
Brodie you can't stop me now  
I won't drown

See what you wanna see, yeah, you see what you wanna be  
And you wanna be what you wanna be  
You can see what I wanna be

I stick to Your Word on the daily  
Had to toughen up, Alien made me  
Feel like Brady going eleven  
Not of this world, I'm going to Heaven  
I've been seeing the most with my brethrens  
I forgive you I'm tryna forget it  
Ain't no weapon against me, I question it  
Not of this world, I'm going to Heaven  
I was taking my time to believe  
I was taking my time to go grieve  
I was just in the garden with Eve  
Now I'm headed back onto the east  
See the devil just ruin your peace  
Why can't we understand that we free  
I am back and the name is GAWVI

Yeah, yeah

I can't believe it, I ain't see it all this time  
Lately I feel right at home  
And two by two we hopped up out this flight  
Lately I've been feeling purified, in paradise  
Oh, lately I feel right at home  
'Cause two by two we hopped up out this flight  
Brodie you can't stop me now  
I won't drown

See what you wanna see, yeah, you see what you wanna be  
And you wanna be what you wanna be  
You can see what I wanna be
