

Breathe

GAWVI

Finally I'm breathing, yeah
God, You came rushing to my healing, yeah
Everything 'bout You's what I'm needing, yeah
It's only You that could change my whole season, my whole season

Crazy, crazy in love with You
Daily, daily I walk with You
Lately I been feeling so brand new
This feeling so brand new
Finally I'm breathing, yeah
God, You came rushing to my healing, yeah
Everything 'bout You's what I'm needing, yeah
It's only You that could change my whole season, my whole season

Yeah, it doesn't get better than this
I've been living out what many they wish
God told me to catch, there's plenty of fish on the other side
Oh what a time, now things align
God You breathe life, oh what a feeling
You awaken inside of my soul

Crazy, crazy in love with You
Daily, daily I walk with You
Lately I been feeling so brand new
This feeling so brand new
Finally I'm breathing, yeah
God, You came rushing to my healing, yeah
Everything 'bout You's what I'm needing, yeah
It's only You that could change my whole season, my whole season

I don't know, I just love doing these switch-ups, you know what I'm saying?
I want you to feel like you [?] right now
Heading straight to the beach, right down off of Las Olas, yeah
But you know it's one of them days [?] are out, you know what I'm saying?
Not the shoes, not dunks, I'm talking about the whips
Big boys, 954, you know about dem tings

One day at a time
El Shaddai you'll find
Just keep on going and you'll be alright
One day at a time
El Shaddai you'll find
Today's all working for you, it's working for

One day at a time
El Shaddai you'll find
One day at a time
El Shaddai you'll find
Light of Christ you'll find

God I give You all my praise
You are in this air I breathe
Take me to Your destiny
Help me sing Your melody
God I give You all my praise
You are in this air I breathe
Take me to Your destiny

Help me sing Your melody
God I give You all my praise
You are in this air I breathe
Take me to Your destiny
Help me sing Your melody

One day at a time
El Shaddai you'll find
One day at a time
El Shaddai you'll find
