

Clouds Over My Head

GAWVI

Oh my peace keeps falling out my hands
I need You round me
Oh time and time seems life is figured out
And then I'm drowning

Why does it feel like I just tolerate?
God I've been working through all this pain
I catch Your rhythm then I hesitate, yeah
I need to know that we ain't parting ways, that we ain't parting ways
, yeah

Insecure
I wish I trusted just a little more
Yeah, insecure
I wish I knew what all this pain was for

I saw my whole world crashing down on me
I questioned everything surrounding me
Am I the only one
Wishing You were right in front of me? I just wanna believe, yeah

Everyone seems like they have the answers
But they just point in different directions
I'm clouded by all these opinions, God
Can You just heal the damage?

Why does it feel like I just tolerate?
God I've been working through all this pain
I catch Your rhythm then I hesitate, yeah
I need to know that we ain't parting ways, that we ain't parting ways
, yeah

Insecure
I wish I trusted just a little more
Yeah, insecure
I wish I knew what all this pain was for

(La-la, la-la)
Just keep going, God's tryna show you something
(La-la) something (la-la) something, yeah
(La-la, la-la)
Just keep going, God's tryna show you something
(La-la) something (la-la) mmh

I saw my whole world crashing down on me
I questioned everything surrounding me
Am I the only one wishing You were right in front of me?
I just wanna believe, yeah
