

# Desire

GAWVI

Girl, I know that it's hard to hold on  
But hang on, hang on, hang on, yeah  
Driving through the city so  
Get it, girl, baby  
I know that it's a start

I know what's on your mind, it's alright  
I feel bad sometimes too  
I just want you to know how special you are  
You are, you are, you are, you are

We're in a world of desires, desires, desires  
I'll always be here for your desires, desires  
We just want everything  
That we feel in our heart  
Those desires, desires, desires  
We're in a world of...

Girl, I see you been running along for so long  
So long, so long, yeah  
Baby don't you give up now  
We can get through whatever together

I know what's on your mind, it's alright  
I feel bad sometimes too  
I just want you to know how special you are  
You are, you are, you are, you are

We're in a world of desires, desires, desires  
I'll always be here for your desires, desires  
We just want everything  
That we feel in our heart  
Those desires, desires, desires  
We're in a world of...

Desires, desires  
Desires, desires  
Desires, desires  
Desires, desires

We're in a world of desires, desires, desires  
I'll always be here for your desires, desires  
We just want everything that we feel in our heart  
Those desires, desires, desires  
We're in a world of...

We're in a world of desires, desires, desires  
I'll always be here for your desires, desires  
We just want everything that we feel in our heart  
Those desires, desires, desires  
We're in a world of...
