

GET EM

GAWVI

Gawvi blew the speaker

Get 'em!

Gawvi blew the speaker

I got 'em, get 'em, I got 'em

Oh, huh, gettin' em, yeah

Told you, we gonna go get 'em

You tryna mess with the squad?

Get 'em, we do what we say, aye

You cannot stop what is God's

Lethal when bringin' my bars, aye

You know we killin' the odds

Bull in the paint

Whatchu gon' think?

I'ma drop fifty on y'all, yeah

Whatcha gon' do

When we come through?

Lock all you, block all you dogs

Yeah, what?

Lock all you, block all you dogs

Yeah, what?

Lock all you, block all you dogs

Got 'em invited

This is a riot

Yeah, we like God

Killin' Goliath, aye

Don't need your guidance

I look to God

This ain't performance

More like I'm Jordan

Sick with the game

Don't need your fortune, huh?

We got the foreign

Ooh, ooh

Yeah, climb on the gold (climb on the gold)

Hittin' the goal (hittin' the goal)

Off in a boat (off in a boat)

Run for it

Stop snoring

You know it

Yeah, yeah, yeah

Yams, baby

Yams, bae

Finna leave to be purple, uh

Since the kids with bifocals, uh

I was focused with the vocals, uh

Made a name for the locals, uh

Made a vow and a promise

Before any die, I had to decide if I'm in it for the long haul, I

Turned a nickel to a dime while

The rest of them nickel-and-diming

Ain't with all the bickering, babe can't

Afford the lights flickering, baking

I got bills to pay, I got meals to eat

I got dreams to chase, and no sheep to count

I just need to map all of these amounts
Into the account
Till the trumpet sound

Oh, huh, gettin' em, yeah
Told you, we gonna go get 'em
You tryna mess with the squad?
Get 'em, we do what we say
You cannot stop what is God's
Lethal when bringin' my bars, aye
You know we killin' the odds
Bull in the paint
Whatchu gon' think?
I'ma drop fifty on y'all, yeah
Whatcha gon' do
When we come through?
Lock all you, block all you dogs
Yeah, what?
Lock all you, block all you dogs
Yeah, what?
Lock all you, block all you dogs

It's whitey, the GIANT
I'm playin' on retirement
Been bossin' up and it's tirin'
Been in the booth with finest
I've been perfecting this science
Pass casts with the mad plaques
Labels passing on me and it's alright
And mad guys tryna call back and they blame it on they freakin' bad side
Speakin' to kids and I'm watchin' my tongue
24 hours, a session could run
Spittin' to end you with love
Tough as a mug
You don't want nothin' from us
Bruh, what have you done?
They tryin' to ask me, "Where are you from?"
Give 'em the look like, "Ooh, you done"
Reach in my basket, makin' my sun
Baow!

Huh? What the goofy wanna say?
I show up, but I bet you won't spray
She'll love, but then he done wanna hate
They really wanna see us in the grave
I don't speak no lies, we on a roll
Momma told me that I gotta grow
She in Haiti, fly her to a show
Mes amis, I do it for my zones
Peter piper done picked apart my flows
Y'all picked me up and placed me on this globe
They need a banger, that Kurt Cobain
The demons thought they had me chained, but now I'm free to boast, like aye
You're dealing with the mind of the Most High
You're dealing with a squad that is co-signed
Doctor told me check the prognosis
Rap saviour? Y'all know who Jay-Hova is?

Oh, huh, gettin' em, yeah
Told you, we gonna go get 'em
You tryna mess with the squad?
Get 'em, we do what we say
You cannot stop what is God's

Lethal when bringin' my bars, aye
You know we killin' the odds
Bull in the paint
Whatchu gon' think?
I 'ma drop fifty on y'all, yeah
Whatcha gon' do
When we come through?
Lock all you, block all you dogs
Yeah, what?
Lock all you, block all you dogs
Yeah, what?
Lock all you, block all you dogs
