

Out My Mind

GAWVI

What'd you do to me?
Baby, baby
You got me going out my mind
It's a mystery, I can't explain it
I never know what I might find

We've got the makings of something so beautiful
But I got to be real, oh
Wish I could see inside to everything you desire
You really got me going out

Got me going out my mind
Wanna feel it all the time

What'd you do to me?
Baby, baby
I can see it in your eyes
What it's meant to be eventually
You're gonna come to me in time

We've got the makings of something so beautiful
But I got to be real, oh
Wish I could see inside
To everything you desire
You really got me going out

Got me going out my mind
Wanna feel it all the time
Got me going out my mind
Wanna feel it all the time

I wanna feel it all the time
What'd you do to me?
I can't explain
And I'm going out my mind
Just you and me, you and me my baby
I can't explain
And I'm going out my mind

Got me going out my mind
Wanna feel it all the time

Oh, what'd you do to me?
You're too good to believe
Always stay true to me
Oh, you got me going out my mind

Oh, what'd you do to me?
You're too good to believe
Always stay true to me
Oh, you got me going out my mind

Oh, what'd you do to me?
You're too good to believe
Always stay true to me
Oh, you got me going out my mind

Oh, what'd you do to me?
You're too good to believe
Always stay true to me
Oh, you got me going out my mind

Oh, what'd you do to me?
You're too good to believe
Always stay true to me
Oh, you got me going out my mind

Oh, what'd you do to me?
You're too good to believe
Always stay true to me
Oh, you got me going out my mind
