

I know that you deserve it all and all of me even  
When I know I fall, I can't believe I'm gone  
And I know that you always show me grace  
Even though I run place to place, I love that you found me  
I know that you deserve it all and all of me even  
When I know I fall, I can't believe I'm gone  
And I know that you always show me grace  
Even though I run place to place, I love that you found me

I know that you deserve it all and all of me  
When I know I fall, I can't believe I'm gone  
And I know that you always show me grace  
Even though I run place to place, I love that you found me

I know that you deserve it all and all of me  
When I know I fall, I can't believe I'm gone  
And I know that you always show me grace  
Even though I run place to place, I love that you found me

I know that you deserve it all and all of me even  
When I know I fall, I can't believe I'm gone  
And I know that you always show me grace  
Even though I run place to place, I love that you found me

I know that you deserve it all and all of me even  
When I know I fall, I can't believe I'm gone  
And I know that you always show me grace  
Even though I run place to place, I love that you found me

I know that you deserve it all and all of me even  
When I know I fall, I can't believe I'm gone  
And I know that you always show me grace  
Even though I run place to place, I love that you found me

I know that you deserve it all and all of me even  
When I know I fall, I can't believe I'm gone  
And I know that you always show me grace  
Even though I run place to place, I love that you found me

I know that you
