

## For Anita

Gazebo

For Anita I have lost my mind  
Never knew that I could be so blind  
For Anita took me by the hand  
Made me understand  
Gave me sympathy to lead me through the night  
Gave me energy to cope it through the light

Today together  
The future's on the way  
One love forever  
In a deep blue day

For Anita I lived in a box  
Made me free like in a paradox  
For Anita was intelligence  
She was elegance  
Gave me harmony to make it through the mess  
And a family to make me feel careless

Today together  
The future's on the way  
One love forever  
In a deep blue day
