

An Audience

Gazpacho

Tell it to the starfish
Tell it to the souls
Tell it to the stranger
That everybody knows
Turn this lesson of silence
Her eyes, her eyes are upon you now
Her tears will flow upon you now
So
Tell it to the starfish

You solved beauty
You saw beauty

Tell it to the starfish
Tell it to the ghosts
Tell it to the enemy
Taking your control
Her eyes, her eyes are upon you now
"You sold your name"
