

## Hell Freezes over III

Gazpacho

Feel the heat, burn your bed  
Your heart is vast, but no black jack  
You look so tiny in the cab  
Take me back  
Take me back

But you're gonna take the alleyways  
You're gonna take this sense of the fathers  
Take them away  
Take them away

Well they told you this would be the end  
To keep her panicked won't get her back again  
But her heart leaves  
Take me back  
Take me back

Gonna take the alleyways  
Gonna take this sense of the fathers  
Take them away  
Take them away
