

## Nemo

## Gazpacho

And I've been with the vultures and the zeroes,  
high flying captain nemos,  
and I say, what are you doing today, toasting the  
skyline,  
or the ninth wave,  
what you believe has no light, and it's your fault,

surfing past them, someone tell me when to stop,  
one or the other, see who's coming out on top,  
my eyes have seen your glory fade away,  
you try real hard to snatch you up a couple of miracles,

and I'll come home, be a better man, if you promise not  
to follow,  
and now, before it has begun, wherever you are from, you  
can go  
but you can't come,

surfing past them, someone tell me when to stop, one or  
the other, see who's coming out on top, my eyes have seen  
your glory fade  
away, you try real hard to snatch you up a couple of  
miracles.
