

# The Power of One

GBH

This sure is a bad mistake that i'm making  
The risk is high with the chances i'm taking  
The power of one; an unstoppable force  
Don't get in the way it's gotta run its course  
The power of one it's a runaway train  
Cutting a tunnel right through to your brain

This is the night this is the night all your demons be gone

In the dead of night when everybody's sleeping  
I roam the streets and cast shadows creeping  
The power of one as the magnets repel  
It's a mirror image of my personal hell  
The power of one it's my sanctuary  
Alone in the corner i can be free

This is the night, this is the night, all your demons be gone  
This is the night, this is the night, you get with the power of  
one

I used to lie awake at night; hoping and dreaming  
Now I'm strapped into my bed; kicking and screaming

Way down deep it's attention i'm craving  
The razor cuts deep and it's me i'm blaming  
The power of one it's a cry of pain  
Been thinking too much it's hurting my brain  
The power of one and my e.s.t  
Leave me alone just let me be

This is the night, this is the night, all your demons be gone  
This is the night, this is the night, you get with the power of  
one
