

## Chickenrace

Gehennah

Every string bent out of time, blood metal overdose  
Metalheads, come bang'em wild, let's show'em who's the boss  
Rule this place with iron hands like a concentration camp  
Loyal to the metal life, smell the burning amps

We're banging our heads faster and faster  
If someone won't do it, then throw out the bastard!

Violent fists pounding all around  
There's no fucking control, only sound  
Hot like death valley, rock'n'roll rally  
Chickenrace

We're speeding down the metal highway, hold on to your balls  
Our hardrock-tank will race you all and run over the false  
We'll go against all fucking odds, come with us, share our pride  
You're with us or against us now, bang or step aside!!!

More that head and bang it hard unless you want a fight  
We'll grab your neck, swing all around and kick you out of sight  
Heavy metal, heavy metal, screaming in our heads  
We don't complain it's here to stay until we're fucking dead

We're banging our heads 'till the death!!!
