

Rocking Through The Kill

Gehennah

Like fiery demons we're on the attack
We're going to hell and we ain't coming back
No remorse We're raising cain, got to show'em how
If hell is where we're going we might as well go now

People always die metal never will
When Armageddon's here we'll be rocking through the kill

I don't think that hell will never ever freeze
Cause our metal will always turn up the heat
If you don't like it, you'd better watch fucking out
Or we'll just show you what we're all about

People always die metal never will
When Armageddon's here we'll be rockig through the kill

Like fiery demons we're on the attack
We're going to hell and we ain't coming back
No remorse We're raising cain, got to show'em how
If hell is where we're going we might as well go now

People always die metal never will
When Armageddon's here we'll be rocking through the kill
