

Dark Clouds

Geko

Smile for me smile for me
Smile for me smile for me
One tape records
Will you smile for me baby?
Will you smile for me baby?
Will you smile for me?
Will you smile for me?

All I want you to do is smile for me
Cause when I was down you had time for me
And no one had my back
You were there when all their hearts were black
Now I'm thinking about all the times that you ran to my arms
But we're here now and I love you I want to sound the alarms
That no ones taking you oh, no ones taking you oh
When you feel like everyone's hating you
You saved me, now I'm saving you so

If I took away the dark cloud above your head
If I remind you of the words you said
When I was down and you was up
You told me smile when I was stuck
Now imma say the same to (I was down and you were)
Will you smile for me?
Will you smile for me?

Will you smile for me baby?
It's been a while let me say this
Take you down the aisle little baby
Hmm just a little bit of crazy
Give me a little bit of this little bit of that little bit of love
Can go so far
I need you in my arms tonight
I've been thinking about all the times that we have been in love
Got me singing now let me speak cause you give me a buzz

If I took away the dark cloud above your head
If I remind you of the words you said
When I was down and you was up
You told me smile when I was stuck
Now imma say the same to (I was down and you were)
Will you smile for me?
Will you smile for me?
