

# Lights Out

Geko

I'm on stage I can see the lights  
Look down at my hands I can see the mic  
And the noise from the fans is so loud  
But so silent when the times out  
I just keep a bright smile  
Maintain till it's lights out for me  
I pray for my people that are finished with their eyes now  
And so keep it moving till it's lights out for me

There's no such thing as breathing for no purpose  
We just hide in the vents and stay nervous  
There's a lord right above they can't curse us  
We just gotta step on ice and break the surface  
My momma went through shit that gave me trauma  
I took it like a man and I feel taller  
I wish you could really feel my aura  
My daddy's brother died while he was dealing with my momma  
Situation I was drinking in the corner  
What kind of shit is that  
I went through some depression with I could run it back  
Looking at my body for a soul there's none in that  
Bearing my self it's hard to find the fun in that

I'm on stage I can see the lights  
Look down at my hands I can see the mic  
And the noise from the fans is so loud  
But so silent when the times out  
I just keep a bright smile  
Maintain till it's lights out for me  
I pray for my people that are finished with their eyes now  
And so keep it moving till it's lights out for me  
Lights out for me  
Lights out for me  
I'm on stage I can see the lights  
Look down at my hands I can see the mic  
And the noise from the fans is so loud  
But so silent when the times out  
I just keep a bright smile  
Maintain till it's lights out for me  
I pray for my people that are finished with their eyes now  
And so keep it moving till it's lights out for me

Looked at my poppa seen his hair has gone all white  
I hugged him and kissed him like everything is alright  
Pretended everything was cool I just can't write  
The feeling knowin' liqueur never made us more tight  
I kept taking pills tryna make harder  
Until I started having seizures after  
Done some dumb shit that's just for starter  
Ended up in a mental home mazza  
No TV no toilet in my room  
High risk I was 19 I was doomed  
I was young with dreams of a baller  
Thought I was a goner

I'm on stage I can see the lights  
Look down at my hands I can see the mic

And the noise from the fans is so loud  
But so silent when the times out  
I just keep a bright smile  
Maintain till it's lights out for me  
I pray for my people that are finished with their eyes now  
And so keep it moving till it's lights out for me  
Lights out for me  
Lights out for me  
I'm on stage I can see the lights  
Look down at my hands I can see the mic  
And the noise from the fans is so loud  
But so silent when the times out  
I just keep a bright smile  
Maintain till it's lights out for me
