

Lock The Door

Geko

She won't let me out, she locked the door
Badder than any girl I've met before
Can't let her get in control 'cause I've heard this one before
No pon the woman pon your head
No pon the woman pon your head
No pon the woman pon your head
No pon the woman pon your head

Baby I ain't tryna fake it
You know I wanna see you naki-naki-naked
Give me your back, let me break it
I know you wanna taste it, taste it, taste it, taste it
It's available, come play with it
When it's available, there's no finish
It's available, come play with it
Ain't nobody has to know, no penis
She was singing no stallin'
Whine a pon me, oh darlin'
Almost guard me off guard then
Lord have mercy, oh Lordy (Oh Lordy)
She said take it slow

But baba girl saying go harder
Call me papi, call me daddy like you got no
Father

She won't let me out, she locked the door
Badder than any girl I've met before
Can't let her get in control 'cause I've heard this one before
No pon the woman pon your head
No pon the woman pon your head
No pon the woman pon your head
No pon the woman pon your head

You made me cold and nice
[?] roll the dice
Let me get that six, let me get that ooh
How you get them lips? How you get that cool?
So lil' homie, when it rains, it pours
Same way she two-way, just for me of course
'Cause I am the cause
Going too fast so she telling me pause

She got the good-good, yeah
I've got the good-good, ah
Now she screaming "Yeah"
Now she screaming "Ah"
She got the good-good, yeah
I've got the good-good, ah
Now she screaming "Yeah"
Now she screaming "Ah"

But baba girl saying go harder
Call me Papi, call me Daddy like you got no Father

She won't let me out, she locked the door
Badder than any girl I've met before

Can't let her get in control 'cause I've heard this one before
No pon the woman pon your head
No pon the woman pon your head
No pon the woman pon your head
No pon the woman pon your head
