

My Bad

Geko

I seen it in your eyes you were changing already
Baby I can see the pain already
That's how a fourths singing this harmony my phone don't ring no more there'
s no calling me

No more
Now I'm saying even more byes to sober
Cah Jack be my bestfriend I'm holding on it
Maybe Daniels will keep me away from it
You lied to my face you
You whined up your waist
You tied up my lace for me
When I was tangled up and now
You're angles fucked I have to Cancel us from here
Tell me what you mean by leaving
Me in our room like that, like that, Like that
Like that like that like that actually
My bad my bad

I can't change decisions
But I wish I could
You take my mind on missions
This feeling good
Mmmmmmm mmmmm
Come pick up the pieces you left
Mmmmmmm mmmmm
Come pick up the pieces you left

How did it go from you giving me
Everyting I need to the stage where I
Got up man and watched you Leave?
I would cuddle you until I see you Fall asleep
Then I get up with a smile while I Watched you breathe
Oh I miss you ohhhh now
Why I miss you ohhh why
You've hurt me before I forgived you for that

You brighten my days
Now its time to man up
Your name still remains but its time to hang up
But the memories that we had in the past girl your a walk in the dark
Tell me what you mean by leaving me in our room like that, like that, like t
hat
Like that like that like that actually my bad my bad

I can't change decisions
But I wish I could
You take my mind on missions
This feeling good
Mmmmmmm mmmmm
Come pick up the pieces you left
Mmmmmmm mmmmm
Come pick up the pieces

I can't change decisions
But I wish I could
You take my mind on missions

This feeling good
Mmmmmmm mmmmm
Come pick up the pieces you left
Mmmmmmm mmmmm
Come pick up the pieces you left

Come pick up the pieces you left...
