

Talents

Geko

All I want you to do is
Show me talents that I've never seen before
Baby you should take a risk
Leave your boyfriend outside of the door
Then we can go high ay ay
And wave your ex bye ay ay
Babe I know you wanted this from the
Minute that you see me and I saw (do you)

I don't feel like I'm healthy for ya
Besides I did put a lot of girls before ya
But maybe it's just the paranoia
That made me wanna leave
Every time I saw ya

Now you got someone else in your life
But babe you gotta take this advice
I'm your lover and your doctor
In the times that you need
I will always want you back every time
That you leave
Let's grab a henny just for me and you
Lets catch a vibe maybe see the things
That we can do maybe I can be your ride
Come one baby take a ride put your clothing
To the side, my girl fuck them other guys

Can you leave your boy aside
We both know that you're mine
You can never take his side
I just wanna know your fine
Nah baby I'm lying I'm really missing your behind

All I want you to do is
Show me talents that I've never seen before
Baby you should take a risk
Leave your boyfriend outside of the door
Then we can go high ay ay
And wave your ex bye ay ay
Babe I know you wanted this from the
Minute that you see me and I saw (do you)

So what you're picking his face over mine
He's pussy you're gonna be sick of his face overtime
You know I'm kinda famous, got some bitches
On my line but they just want my fans to know
That they will over shine
I know you got some fans too
I'm about to go crazy on you
And your man too
Nah baby wait, did you forget about
Our favourite spot, did you forget that
Every time we I make it hot

I just wanna show what I can do (I can do)
Then after you can show what you can too
Babe you should make up your mind

Come on closer you will find just for you
I got the time don't be scared baby it's fine

Can you leave your boy aside
We both know that you're mine
You can never take his side
I just wanna know your fine
Nah baby I'm lying I'm really missing your behind

All I want you to do is
Show me talents that I've never seen before
Baby you should take a risk
Leave your boyfriend outside of the door
Then we can go high ay ay
And wave your ex bye ay ay
Babe I know you wanted this from the
Minute that you see me and I saw (do you)
